INTRODUCTION

The Melody Of The Books project is created to adress the major problems that visually impaired and visually challenged children not being able to read books like other children. Collaborating with TEDU RADIO to get audio recordings and childrens books was a great advance to our project. Their help advanced our projects movement very effectively

PURPOSE

We are aiming to solve this issue that is preventing them from enjoying the books by reading it for them. By recording the audiobooks this project is expected to help visually impaired children with their education and entertainment. This project also raises awareness amongs other people to tell about this issue to inform them that visually impaired childrens troubles.

STEPS

Preparation

Assembled the project team and assigned roles to each member.

Collabroration

Selected and contacted with TEDURADIO as our partnering orginization

Audio Recording

Scheduled hours for our recordings with group members.

Video

Recorded a short video and posted it to TEDURADIO's Instagram page.

CONCLUSION

The Melody of the Books purpose holds strong potential to make a meaningful impact. By providing access to audiobooks we are aiming to bring the joy of reading to visually impaired children supporting both their education and imagination. With the valuable collaboration of TEDU RADIO this attempt not only addresses a critical issue in accessibility but also seeks to raise public awareness about the challenges faced by visually impaired children. As we move toward launching this project we remain committed to creating a more inclusive world where every child can experience the magic of books.
